### IMPACT BUEA-HIGH SCHOOL AND UNIVERSITY MISSION CONFERENCE 2009

Our annual student conference this year(July) was focused on equipping students and challenging them for two types of voluntary service- Three years voluntary service in foreign countries and one to two years voluntary service on our campuses. We had three categories of speakers this year. Prophet Peter Yaboah of Ghana as main speaker spoke on the conference theme "... Let us Build these cities... and they did and prospered" 2 Chron14:7. God used him greatly to set the week ablazed. Every student was revitalised and ignited as agents of revival. The Second type of speakers were motivational speakers - Doctor Oben and Kwalar of the university of Buea. God used them to shape students as right vessels on the right path to build the broken cities. And the third speakers were CCC staff who help in training students on how to become a real **man on mission for the "Battle for Africa 2020"**. Students learned innovative ways on how to connect the lost to Christ, intensify life changing discipleship on campus as swift messengers. Everyone left the conference strengthened in faith not only to volunteer to work but to remain active at the frontline. This brought together 25 campus staff and 150 leaders.

Workshops

A cross section of participants ~ Kingsley practice to go for evangelism ~ Part of Douala Crew team ~ Visiting mount Cameroon eruption site

**Abraham's Call!** Augustine & Diane graduated from the university in 2008 and got married. They volunteered to work in the Campus ministry in Chad. They did not know what was awaiting them there. When they arrived, they were assigned to work in Abeche University which is a fresh Campus in the Northern part of Chad. They had no money as a young couple. When they began their work, it was really difficult to penetrate with the gospel. They suddenly realized many students were eager to learn English Language. They saw this as an opportunity and sent in an application to the school authorities requesting for permission and a lecture hall where they could teach English free of charge to students. The school granted the authorization. A degree holder in Physics teaching English in the university!! Students wanted to know why he should be doing this for free and Augustine's answer to them was his love which was strange.

This opened for them many doors to preach the gospel. Over the months he refused a salary the school had to be paying Him and a free accommodation until they had to push him to accept it for his sacrificial work. He has worked out a partnership link between the university and the University of Buea in Cameroon where students can come for intensive English courses. They have seen many Muslim turned to Christ and their desire is to continue, God willing. This testimony reminds us of Luke10:4 "Do not take a purse or a bag or Sandals; and do not greet anyone on the road".

As a result of this testimony, 25 outgoing students accepted to work for 3 years in French Muslim Countries in Africa and the rest committed to serve as volunteers on their campuses. God is at work! Five more students will be volunteering with Student Venture in their different high schools. Thomas just graduated with a master degree and is volunteering to work with Student Venture for about two years.

Augustine & Diane ~ 25 volunteers ready to go to nations

### What's up with us for Sept at SV!

Our leave ends on the 10<sup>th</sup> of Sept, but Linda and I are starting back work on the 1<sup>st</sup> to train our student volunteers -Ask the Lord to back all the volunteers with signs and miracles and financial breakthrough. -Pray for the transformation of 30 new student leaders as they go through a 5 days training this Sept. -Ask the Lord to back and direct us. -Pray for Linda's training with CCCI starting next January in Yaounde.

Thanks for your huge love and care.
